

colours of ropes increased alarmingly. The government has found as yet no means of abating this evil.

FOREIGNERS INTERFERED.

Admiral De Meles Forcibly to Cease Hostilities at Rio de Janeiro.

LONDON, Sept. 30.—Dispatches received here from Rio de Janeiro to-day say that Admiral De Meles, the commander of the rebel fleet, failed to attack the fort at the mouth of the harbor to-day, and that he only desisted upon the strong representations of the commanders of the foreign war ships. The British minister at Rio took an active part with the other foreign ministers at Rio in doing everything possible to secure the cessation of the hostilities. The commanders of the foreign war ships at Rio also took a decidedly active part in preventing further bombardments. At noon to-day a dispatch was received here from Rio which indicated that the intervention of ministers and of the commanders of foreign war vessels have been successful. It is now believed that a favorable turn of the situation has taken place.

The report published in Berlin that Great Britain would grant a joint intervention of the great continental powers and of the United States to bring about a state of peace in that republic is officially denied.

Boynton May Be Tried Here.

WASHINGTON, Sept. 30.—Secretary Herbert said to-day that there were no new facts to make public in the case of the American named Boynton, who had been arrested at Rio de Janeiro while in command of a tug, illegally flying the British flag. It is unlikely, from what the Secretary said, that anything further will be done in the matter until the department has in its possession additional information concerning the case. The department of State officials are inclined to treat the matter as of slight importance, and say that it has no international feature whatever. The question of the Boynton trial will be brought to the United States for trial and by whom he may be tried may be decided upon by the Secretary of the Navy and the Attorney-general.

Opened Fire Again.

MONTVIDEO, Sept. 30.—The Brazil consul here refuses to sign clearance papers for vessels bound to Brazilian ports. The latest report received here from Rio de Janeiro is to the effect that the rebel war vessels have again opened fire on the Brazilian coast, and that much damage to property has been done.

ARGENTINE'S REVOLUTION.

The Insurgent War Ship Andes Captured by a Government Frigate.

BUENOS AYRES, Sept. 30.—The Argentine government's ironclad Independence, now at Rosario, has captured the rebel war ship Andes. The latter vessel was seized at Buenos Ayres a few days ago, while lying discharged and out of commission. When the Independence was sighted by the rebels on board the Andes, the latter's officers took to the boats and managed to escape ashore. The crew, however, was captured and will be tried by court-martial and sentenced to long terms of imprisonment.

It would appear that the reports circulated to the effect that Rosario had been considered were incorrect, as the rebels there are still holding out and claim to be able to make long resistance. General Roca has left here to take command of the federal troops. It is rumored that fresh defections to the rebels have taken place, and that the latter are correspondingly elated. A German newspaper says the Argentine paper La Gaceta has been suppressed for publishing news unfavorable to the government, and its editor has been arrested and thrown into prison.

The latest news received here from Rosario is to the effect that the Swiss and German colonists of the neighborhood, are supporting the insurgents. There has been continuous fighting throughout the day, but the rebels claim to have the advantage, and, on the other side, the government forces claim to have the advantage. The fact which is certain is that there has been severe fighting between the rebels and the government troops.

The Outbreaks Unimportant.

WASHINGTON, Sept. 30.—The Department of State to-night received a cablegram from Mr. Fishback, secretary of legation at Buenos Ayres, stating that several unimportant outbreaks had occurred there, but that the government forces were well in hand, and no serious results are anticipated.

FALLS TO BE SHOT.

The Anarchist May Be Executed at Barcelona This Morning.

BARCELONA, Sept. 30.—According to the military code, Pallas, the anarchist who has been tried by court-martial for throwing two bombs at General Martinez Campos on Sunday last, will be shot with his back turned toward the firing party of soldiers who will execute him. The anarchist shows the greatest serenity of mind, and seems not to be disturbed by the fate awaiting him. He was allowed to have an interview with his children. He caressed them in the most stolid manner, exchanged a few words with his mother, and remained unmoved and unconcerned. It is believed, however, that Pallas will be shot early in the morning, and that the place of execution will be kept secret. General Campos continues to improve. It is reported here that the veteran commander has asked the president of the military tribunal to pardon Pallas.

CUMBERSOME WAR SHIPS.

Sentiment Developing in Germany Against Monster Armored Vessels.

BERLIN, Sept. 30.—The recent agitation in England in regard to the defects found in the British war ships, brought on mainly by the disaster to the Victoria, has had an echo here. It will be remembered that in the House of Commons, recently, Mr. Edward T. Gurney, a well-known shipbuilder and member for Sunderland, asked whether, since the sinking of the war ship Victoria, the government's attention has been directed to the criticism of the experts at home and abroad as to the utility of ships of monstrous size. It was claimed that the majority of the larger British battle ships were comparatively useless for the purpose they were intended for. It was also suggested that the British fleet would be more strengthened by the addition of large numbers of fast cruisers, of powerful rams, and vessels of a type smaller and less expensive than the monster battle ships which seem to be so much favored by the British shipbuilders.

The shipbuilding experts of Germany have followed closely the criticism made in England, and they insist that the present type of German war ships is especially unsuited to Germany. They cite as an instance that the König Wilhelm, the largest of the German fleet, is so slow that it is scarcely able to use its guns during heavy sea. This fact was recently recalled during the naval maneuvers in the German ocean, and it is claimed that these ships were shown to be thoroughly unsuited for Germany's flat land coast. The König Wilhelm was launched in 1890, has two inches of armor, carries eighteen 14-inch guns and four 12-ton guns. She has 8,000 indicated horse power and a tonnage displacement of 23,575 tons. The Deutschland, the second of the German fleet, is slightly smaller, but is scarcely able to use its guns during heavy sea. Miss Schlesinger's Coming Marriage.

LONDON, Sept. 30.—The rector of St. George's Church, in Alhambra street, has finally succeeded in obtaining a license to perform the marriage between Lieut. Von Kiehnitz, eldest son of his Excellency General Von Reibnitz, and Miss Lily

Schlesinger, daughter of the American merchant and millionaire, Sebastian Schlesinger, who formerly lived in Boston, Mass., but who now resides in a handsome house near Alhambra street. The marriage will take place on Monday. There will be six bridesmaids. The groom and his best man, Lieut. Von Kiehnitz, and his father, General Von Kiehnitz, will be present in full uniform. Among the ushers will be Mr. Latz Anderson, of the United States legation, and the guests will be the United States Embassy, and Mrs. Bayard, the Whites and Astors, and Messieurs Mackay, Ronalds and Padewski. The wedding presents are very handsome, and include one from Lady Maier, Countess Von Munster and Countess Pourtales.

Riotous French Coal Miners.

PARIS, Sept. 30.—There have been several severe riots in the Pas De Calais coal districts. The disturbances took place last night and to-day. The strikers organized themselves into patrols, and endeavored to prevent nonunion men from going down into the mines or in any way taking part in putting out coal. The police were unable to cope with the strikers, and the latter managed to disperse the strikers. A riot occurred near Lens to-day. While a lot of gentlemen were trying to disperse a mob of strikers at Astricourt they were assailed by the men out of work who showered stones upon them, and tried to drive them from the field. The mob was charged with drawn swords. Several of the strikers were wounded, and a number were arrested.

Cable Notes.

A man named Stepekova, who was arrested in Saragossa, Austria, on the charge of lese-majesty, was guilty of the offense of smashing a bust of the Emperor with a stick.

The priests throughout France have been for some time called to a month's service with the army reserves. Their temporary absences from their parishes is being officially notified in the church papers. A large caravan, one conveying a large number of soldiers, and the other conveying a number of merchants, have been attacked near Uz and all the animals and goods have been stolen.

The arrival of Emperor William, of Germany, at Rominten, his Prussian shooting box, has been fixed for to-day, when the emperor will be there to be dedicated in the presence of the Emperor and a large number of members of the court.

In consequence of assertions from anti-Semitic sources that religious books used in the Jewish schools in Germany contained doctrines dangerous to public order, the government ordered an examination of the books. The examinations showed that the assertions were entirely unfounded.

Silver Scale for Silver Miners.

DENVER, Colo., Sept. 30.—The silver mine owners at Aspen were compelled to take down their mine because of the material decline in silver, have made a proposition to the miners tending to a resumption of all idle properties and which will not be accepted by the miners.

As a result of the proposition, the miners are to become effective to-morrow and as follows: When silver is less than 80 cents per ounce for the month the men will receive \$3.50 to \$3.75 per day, according to the class of work required of them; when silver is 80 cents and over, but less than 85 cents, they will receive \$3.75 to \$4.00 per day; when silver is 85 cents and over, they will receive \$4.00 to \$4.25 per day. The acceptance of this proposition will give work to 700 men. Over one thousand returned to work in the Leadville mines recently on the same scale.

A Babe for Seventy-three Years.

WINCHESTER, Pa., Sept. 30.—The funeral of Charles Bailey, of Chambers Ford, last week, was the final chapter in the history of a remarkable man. He was seventy-three years and six months old, yet never either old or decrepit, himself a single time in all his life. Every part of his body was perfectly formed, yet he could perform only the most simple acts with either hands or feet. He was the son of a poor farmer, and he raised his hand from the plow, and twelve years old before he made any progress whatever in locomotion. His mind was retained in judgment keen, and his memory retentive.

Chicago's Brave Broker Rewarded.

CHICAGO, Sept. 30.—At the close of the Board of Trade, to-day, the members assembled in the hall board room in large numbers. The occasion was the presentation of a medal to the hero of the day, who gallantly rushed into the gallery last Wednesday and disarmed the maniac who shooting had created a panic among the members. The hero of the day, Mr. Barrett, briefly and modestly responded. At the same time, a purse of \$50 was presented to Henry Hudson, the colored boy who assisted in the capture.

More Indictments Against Fire Bugs.

CHICAGO, Sept. 30.—The grand jury to-day returned six additional indictments against the alleged fire bugs headed by Fred Smith. The total number of indictments found up to date is twelve. The grand jury indictment are against S. P. Clark and Clarence H. Rowe, insurance adjusters, F. W. Smith, D. W. Brown, Charles Kinman, Otto Zerk, O. C. Chubb, Paul L. Schaefer, David Rosenblatt, and George W. Smith. The scheme was to swindle the insurance companies by bogus claims of losses.

Congress of Missions.

CHICAGO, Sept. 30.—In the Congress of missions to-day Rev. Dr. George Smith, of Edinburgh, said the foreign position of the country were foreign missions. The Americans were to become the main messengers of the gospel to the nations, and the United States and America should walk hand in hand in that work. Rev. Dr. C. Hayden, of Cleveland, Rev. Thomas B. Woods, of Peru, Dr. George A. Post, of Detroit, Syria, and others also made addresses. The Sunday rest congress and the ethical congress held their final sessions to-day.

Hillsdale, Mich., Sept. 30.—Dr. Fogle, whose trial for poisoning his wife ended yesterday in conviction, was brought to Chicago to-day and sentenced to Jackson prison for life. When sentence was passed upon him the Doctor declared that he was innocent. Since his trial has been in progress it has been remembered that the Doctor's first and second wives died under peculiar circumstances, and there is now some suspicion that he may have murdered them also.

New Census Superintendent.

WASHINGTON, Sept. 29.—Hon. Carroll D. Wright, Commissioner of Labor, will be appointed in place of Mr. C. D. Smith, who has been promoted to take charge of the Census Bureau, succeeding James H. Wardle, of New York. He will, however, retain his present position as Commissioner of Labor, and will be in charge of the census for completing the census requires the work to be finished before the beginning of the next fiscal year.

Losses by Fire.

JAMES TOWN, N. Y., Sept. 30.—The Hotel Lehigh, several cottages and a business block at Lakewood, a summer resort on Long Island Sound, were burned to-day. Loss, \$45,000; insurance, \$25,000.

FOR THE MURDERERS

Denson Wratten's Sister Offers \$1,000 for Their Capture.

Dr. Thayer Arrested at Fort Wayne—Winchester Denial of Union City Antivaccination Story.

Special to the Indianapolis Journal.

WASHINGTON, Ind., Sept. 30.—Mrs. Charles McCafferty, sister to Denson Wratten, who, with his family, was murdered here last week, to-day offered a reward of \$1,000 for the arrest and conviction of the murderer, or murderers. She is the only heir to the property of the Wrattens. The mystery remains as deep as ever so far as the public is informed, but officers are active, and the reward may lead to the divulging of secrets said to be held by certain parties. The people of Daviess county are thoroughly organized and have nightly meetings where evidence is exchanged and movements directed. No less than a half million dollars has been offered for information on this should the right parties be arrested and in this event without short of Gatling guns could prevent a lynching.

The people of Daviess county are thoroughly organized and have nightly meetings where evidence is exchanged and movements directed. No less than a half million dollars has been offered for information on this should the right parties be arrested and in this event without short of Gatling guns could prevent a lynching.

Record of Cases and Deaths from Smallpox in Muncie, Ind., Sept. 30.—Mrs. Charles McCafferty, sister to Denson Wratten, who, with his family, was murdered here last week, to-day offered a reward of \$1,000 for the arrest and conviction of the murderer, or murderers. She is the only heir to the property of the Wrattens. The mystery remains as deep as ever so far as the public is informed, but officers are active, and the reward may lead to the divulging of secrets said to be held by certain parties.
